

Different Branches of Management in Business Organizations

- 1)Marketing Management
- 2)Finance Management
- 3)Human Resource Management
- 4)Production and Operations Management
- 5)Supply Chain Management
- 6)Information Systems management

Core functions of management

- 1)Planning
- 2)Organizing
- 3)Staffing
- 4)Directing
- 5)Coordinating
- 6)Reporting
- 7)Budgeting

Development of Management and its Legacy

- Classical Management Theory (19th-early 20th century)
- Human Relations Movement (1920s-1950s)
 - //Maslow's Hierarchy of Needs - Introduced the concept of human needs and their impact on employee behavior.
 - //Herzberg's Two-Factor Theory - Distinguishes between hygiene factors (prevent dissatisfaction) and motivators (promote satisfaction).
- Systems Theory (1950s-1960s)
- Contingency Theory (1960s-1970s) — No one-size-fits-all approach
- Modern Management Perspectives
 - // Quality Management, Total Quality Management, Lean Manufacturing, Six Sigma, Knowledge Management, Corporate Social Responsibility

Gig Economy

- Why Should We Study the Gig Economy?
 - //Changing Work Landscape, Impact on workers, Economic Implications, Innovation and Technology
 - //A business student might study the gig economy to understand how companies like Uber have disrupted the traditional taxi industry by leveraging technology
- Advantages from HR perspective
 - //No Direct Employment, Flexibility for Workers and Companies, Firms' Power and Control Over Associates
- Examples
 - //Helping(Cleaning services) , TaskRabbit(Household Do-It-Yourself) , ClickWorker (Programming) ,Urban Company (House-hold services)
- Different Concepts to Describe the Notion of Independent Workers :

//Elancing, Crowdsourcing, "Work on Demand via App", Independent Contracting, Interim / Freelance project Work

Principles of Scientific Management by Taylor

- Science - Not the Rule of Thumb, Harmony - Not Discord , Mental Revolution, Cooperation - not individualism, Development of Every Individual to his Greatest Efficiency
- Functional Foremanship
- Standardisation and simplification of work
- Method study, Motion study, Time study, Fatigue study

Administrative theory - Fayol's 14 Principles of Management

- 1) Division of Work
- 2) Authority
- 3) Discipline
- 4) Unity of Command
- 5) Unity of Direction
- 6) Collective Interest over Individual Interest.
- 7) Remuneration
- 8) Centralisation
- 9) Scalar chain
- 10) Order
- 11) Equity
- 12) Stability of tenure and personnel
- 13) Initiative
- 14) Esprit de Corps

Fayol's Five Functions of Management

- 1)Planning
- 2)Organising
//Establishing lines of authority and responsibility includes Recruiting employees, Training employees, Coordinating activities, Clarifying doubts
- 3)Commanding - Maximizing employee potential by knowing their skills, delegating appropriately, and setting a good example
- 4)Coordinating - Departments should contribute to overall goals
- 5)Controlling - Continuously checking that rules, plans, and processes are functioning effectively. For example, a manager might **use performance metrics** and regular reviews to ensure that projects are on track and standards are met.

Weber's Bureaucratic Principles

- Aimed to create organizations that were more efficient, predictable, and fair.
- Division of labor, Hierarchy of authority, Rules and Regulations, Impersonality, Meritocracy, Career Orientation, Written Records
- Advantages : Efficiency , Fairness , Predictability , Stability

- Disadvantages : Rigidity , Lack of Creativity , Bureaucratic Red Tape(Excessive paperwork) , Human cost

Emergence of Human Relations (Movement) in Management :

- 4 Separate experiments in Hawthorne Studies(Elton Mayo, Fritz Roethlisberger)(George Pennock, William J. Dickson)
- Four Experiments
 - //Illumination experiments(1924-1927)
 - //Relay assembly test room experiments(1927-1932) - Work,Rest periods & 5 Women on diff floor
 - //Experiment in interweaving workers(1928-1930)
 - //Bank wiring groom experiments(1931-1932)
- Hawthorne effect
 - //Term used to describe the phenomenon where individuals modify an aspect of their behavior in response to their awareness of being observed.
 - //Researchers were initially studying the impact of physical working conditions on productivity, such as lighting, rest breaks, and wage incentives. Surprisingly, they found that productivity increased regardless of the changes made.
- Implications of Hawthorne effect
 - //Employee motivation, Research methodology, Leadership
- While the Hawthorne effect has been widely discussed, its exact nature and extent remain a subject of debate among researchers

Sociotechnical approach to management :

- Emphasizes the interdependence of social and technical systems within an organisation
- Key principles
 - //Interdependence, Optimisation, Joint optimisation, Employee involvement
- Applications of the Sociotechnical Approach :
 - //Job Design, Teamwork, Technology implementation, Organisational change
- Benefits of the Sociotechnical Approach :
 - //Increased productivity, Improved quality, Reduced costs, Enhanced innovation
- Challenges of the Sociotechnical Approach :
 - //Complexity, Resistance to change, Time-Consuming
- Examples of socio-technical systems :
 - //Self-managing teams, Job Enrichment, Technology implementation

Role of Manager :

- The role of managers has evolved significantly over time.
- Read from the notes itself all is important
